CalebDudleyDesign.com | Web

Frontend software engineer who loves building clean, scalable web applications. Solving real-world problems with code, one obscure error message at a time.

Employment

Contrast Security | 2021 - Present: Staff Software Engineer
- Develop, enhance, and maintain user interfaces across the Contrast Security platform
- Architected and built (and continue to enhance) the front-end foundation of Northstar, Contrast's new Application Detection & Response product
- Collaborate with UX and Product to define requirements for reusable components, styles, and patterns within an in-house design system
- Lead migration of legacy features to React-based applications, improving performance and consistency across the platform

Blackhawk Network, Inc. | 2017 – 2021
- Continuing development and maintenance of business-to-business and consumer gift card/prepaid solutions
- Building Node.js SPAs using a Django REST framework and JavaScript architecture, including Backbone and React
- Scrum Master of a team, working closely with product to help prioritize new features as well as ensure our team has everything needed to deliver on time
- Supporting back end Python/Django systems with other experience in SQL (MySQL) and services like Bitbucket, Jenkins, Rally, and Jira

CashStar, Inc. | 2012 – 2017
- Managed client sites and digital assets, maintained application support for desktop, mobile, and legacy browsers, and provided engineering support for projects
- Onboarded clients to our consumer platform and frequently engaged directly with our customers to receive feedback
- Joined a Scrum team in 2013 that focused on business-to-business solutions and continued through our acquisition by Blackhawk Network in August of 2017

FetchDog (Fetch Enterprises, Inc.) | 2011 – 2012
- Worked with a small team of designers to create and manage digital content for online products sold at FetchDog.com
- Helped design and schedule promotional email campaigns and assisted in digital marketing of our products

Client Attraction | 2011
- Maintained the corporate website, additional community websites, and customer database software
- Assisted in online marketing, social media, video editing, print design for corporate events, and helped create other marketing material
